Chairman's Statement

On behalf of the Board of Directors (the "Board"), I am pleased to present the annual report of Capital Estate Limited (the "Company") and its subsidiaries (together the "Group") for the year ended 31st July, 2018.

REVIEW OF THE RESULTS

The Group reported gross proceeds of approximately HK\$323.5 million for the year ended 31st July, 2018 (2017: HK\$124.9 million), which comprised gross proceeds from sales of properties of HK\$237.2 million (2017: Nil), hotel operations of HK\$79.1 million (2017: HK\$82.4 million) and sales of securities and other business segments totaling HK\$7.2 million (2017: HK\$42.5 million).

Profit for the year attributable to owners of the Company for the year ended 31st July, 2018 was HK\$37.2 million (2017: HK\$60.3 million).

The decrease in profit in the year ended 31st July, 2018 was mainly attributable to the net effect of (i) sales of residential properties in Foshan; (ii) impairment loss of HK\$50.1 million on an available-for-sale investment as the Macau government authorities declared the land concession held by an investee company has become invalid; and (ii) share of loss of associate amounting to HK\$0.5 million (2017: share of profit of HK\$12.9 million) resulting from decrease in fair value of investment properties.

DIVIDEND

The Directors do not recommend the payment of any dividends for the year ended 31st July, 2018.

LIQUIDITY AND FINANCIAL RESOURCES

The Group continued to be liquid. At 31st July, 2018, the Group had bank balances and cash (including restricted bank balances) of HK\$280.8 million (2017: HK\$304.5 million) mainly in Hong Kong dollars and Renminbi and marketable securities totalling HK\$46.7 million (2017: HK\$64.2 million).

No bank and other borrowings (other than corporate credit card payable classified as "other payable") were outstanding at 31st July, 2018 (2017: Nil).

On 4th August, 2016, the Company entered into a placing agreement with a placing agent to place 185,000,000 new shares on a best effort basis at a placing price of HK\$0.077 per share. The placing was completed on 17th August, 2016 and the number of shares in issue of the Company was increased to 3,886,751,193 shares.

The Group's gearing ratio, expressed as a percentage of the Group's total liabilities over the shareholders' funds, was 50.3% at 31st July, 2018 (2017: 79.9%).

EXCHANGE RATE EXPOSURE

The assets and liabilities and transactions of several major subsidiaries of the Group are principally denominated in Renminbi or Hong Kong dollars pegged currencies, which expose the Group to foreign currency risk and such risk has not been hedged. It is the Group's policy to monitor such exposure and to use appropriate hedging measures when required.

BUSINESS REVIEW

For the year ended 31st July, 2018, the principal activities of the Group are property development, hotel operation, financial investment and related activities.

Chairman's Statement

Property investment and development

Foshan, the People's Republic of China ("PRC")

The construction of the residential project alongside Hotel Fortuna, Foshan has been completed and hand over of the sold units has begun. During the year, revenue from sales of property amounting to HK\$237.2 million has been recognised and deposits for units pending hand over of approximately HK\$185.6 million have been received up to 31st July, 2018. Sales activities of this high-rise residential development continue and significant contribution to the Group's revenue in the near term is expected.

Nam Van Lake, Macau

The Group held an effective 5% interest in the land site at Avenida Commercial de Macau through an investee company. Pursuant to an official gazette of the Macau Special Administrative Region of the People's Republic of China published during the year, the term of the land concession in respect of the property has expired and the Macau authorities declared that the land concession has become invalid. The Group has been informed by the investee company that a judicial appeal has been lodged against such resumption.

Coloane, Macau

On 5th August, 2016, the Company, through a 99% owned subsidiary Sun Fat Investment and Industry Company Limited ("Sun Fat"), received a written notification dated 1st August, 2016 from the Land, Public Works and Transport Bureau of Macau (the "Notification") informing that the validity period of the land grant in respect of the parcel of land of approximately 9,553 square meters located in Coloane held through Sun Fat for development (the "Macau Land") had expired and the Macau Land should be returned to the government of Macau without compensation. Sun Fat lodged a judicial appeal in September, 2016, and continues to seek legal advices as to the possible steps that can be taken.

On 26th August, 2016, the Group, through two wholly owned subsidiaries, entered into deeds of settlement with Kong Kei Construction Limited ("Kong Kei"), vendor of Sun Fat and a warrantor. Pursuant to the deeds of settlement, as the Group could not obtain approval from the relevant Macau government authorities in respect of the application of the land lease concession of the Macau Land and in light of the Notification, Kong Kei and the warrantor agreed to repay to the Group an aggregate sum of approximately HK\$298.0 million which was the actual amount paid by the Group to Kong Kei for the acquisition of 99% equity interest of Sun Fat.

Up to 31st July, 2018, the Group received a total of HK\$180.0 million from Kong Kei, of which HK\$90.0 million is recognised in profit or loss in the current year (2017: HK\$90.0 million).

Further details of the above are set out in the Company's announcements dated 7th August, 2016, 8th August, 2016 and 26th August, 2016.

Hotel operation

The Group has a 75% effective interest in Hotel Fortuna, Foshan with over 400 rooms located at Le Cong Zhen, Shun De District, Foshan, the PRC. During the year ended 31st December, 2017, the hotel had a stable occupancy rate of approximately 54.8% and a turnover of approximately HK\$89.0 million in 2017 compared to HK\$78.6 million in 2016.

The Group also holds a 32.5% interest in Hotel Fortuna, Macau through Tin Fok Holding Company Limited, an associated company of the Group. The hotel maintained a high occupancy rate of approximately 92.1% and recorded a turnover of approximately HK\$235.5 million in 2017 compared to HK\$216.4 million in 2016.

CONTINGENT LIABILITIES

At 31st July, 2018, the Group provided guarantees of approximately HK\$92.2 million (2017: Nil) to banks in respect of mortgage loans provided by the banks to purchasers of the Group's developed properties. These guarantees will be released when the building ownership certificates are issued and pledged by the purchasers with the banks for the mortgage loans granted. The Directors consider that the fair value of such guarantees on initial recognition was insignificant. The Directors also consider that the fair value of the underlying properties is able to cover the outstanding mortgage loans generated by the Group in the event the purchasers default payments to the banks.

EMPLOYEES

The Group offers its employees competitive remuneration packages to commensurate with their experience, performance and job nature, which include basic salary, bonuses, share options, medical scheme, retirement and other benefits.

At 31st July, 2018, the Group had approximately 350 employees of which approximately 330 employees were stationed in Mainland China. Total staff remuneration incurred for the year ended 31st July, 2018 amounted to approximately HK\$41.9 million (2017: HK\$42.0 million).

PROSPECTS

During the year, the Group received repayments totalling HK\$90.0 million from Kong Kei, the vendor of Sun Fat and sales proceeds and deposits in relation to the Foshan residential project of approximately HK\$172.4 million.

The Group's financial position is expected to be further enhanced in view of more sales revenue forthcoming from sales of the Foshan residential project and further repayment from Kong Kei. The Group will use such extra funding to boost its existing operations and seize viable investment projects.

The Group remains confident of the general prosperity and business potential of the PRC, Macau and nearby regions. The management continues to cautiously monitor its existing businesses, and capture viable business opportunities to maintain sustainable long term growth of the Group.

ACKNOWLEDGEMENTS

I would like to thank my fellow directors and staff for their invaluable contribution and commitment during the year.

By Order of the Board

AUDITOR'S REMUNERATION

For the year ended 31st July, 2018, remuneration of approximately HK\$2,120,000 was payable to the Auditor for audit service and approximately HK\$538,000 for interim review and other non-audit services during the year.

FINANCIAL REPORTING

The directors acknowledge the responsibilities of preparing the financial statements of the Group which give a true and fair view. The statement of the Auditors about their reporting responsibilities is set out in the Independent Auditor's Report on pages 27 to 31.

RISK MANAGEMENT AND INTERNAL CONTROL

The main features of the risk management and internal control systems are to provide a clear governance structure, policies and procedures, as well as reporting mechanism to facilitate the Group to manage its risks across business operations.

The Group has established a risk management framework, which consists of the Board of Directors, the Audit Committee and the Risk Management Taskforce. The Board of Directors determines the nature and extent of risks that shall be taken in achieving the Group's strategic objectives, and has the overall responsibility for monitoring the design, implementation and the overall effectiveness of risk management and internal control systems.

The Group has formulated and adopted Risk Management Policy in providing direction in identifying, evaluating and managing significant risks. At least on an annual basis, the Risk Management Taskforce identifies risks that would adversely affect the achievement of the Group's objectives, and assesses and prioritises the identified risks according to a set of standard criteria. Risk mitigation plans and risk owners are then established for those risks considered to be significant.

In addition, the Group has engaged an independent professional advisor to assist the Board of Directors and the Audit Committee in ongoing monitoring of the risk management and internal control systems of the Group. Deficiencies in the design and implementation of internal controls are identified and recommendations are proposed for improvement. Significant internal control deficiencies are reported to the Audit Committee and the Board of Directors on a timely basis to ensure prompt remediation actions are taken.

Risk management report and internal control report are submitted to the Audit Committee and the Board of Directors at least once a year. The Board of Directors had performed annual review on the effectiveness of the Group's risk management and internal control systems, including but not limited to the Group's ability to cope with its business transformation and changing external environment; the scope and quality of management's review on risk management and internal control systems; result of internal audit work; the extent and frequency of communication with the Board of Directors in relation to result of risk and internal control review; significant failures or weaknesses identified and their related implications; and status of compliance with the Listing Rules. The Board of Directors considers the Group's risk management and internal control systems are effective.

The risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

PROCEDURES AND INTERNAL CONTROLS FOR THE HANDLING AND DISSEMINATION OF INSIDE INFORMATION

The Group complies with requirements of Securities & Futures Ordinance (“SFO”) and the Listing Rules. The Group discloses inside information to the public as soon as reasonably practicable unless the information falls within any of the Safe Harbours as provided in the SFO. Before the information is fully disclosed to the public, the Group ensures the information is kept strictly confidential. If the Group believes that the necessary degree of confidentiality cannot be maintained or that confidentiality may have been breached, the Group would immediately disclose the information to the public. The Group is committed to ensure that information contained in announcements are not false or misleading as to a material fact, or false or misleading through the omission of a material fact in view of presenting information in a clear and balanced way, which requires equal disclosure of both positive and negative facts.

MODEL CODES FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions by directors of the Company. Having made specific enquiry of all directors, all directors confirmed that they have complied with the required standard as set out in the Model Code for the year.

COMMUNICATION WITH SHAREHOLDERS

In order to keep shareholders well informed of the business activities and direction of the Group, information about the Group has been provided to the shareholders through annual and interim reports, circulars, announcements and press interviews. The Company has established its own corporate website www.capitalestate.com.hk to facilitate effective communication with its shareholders and the public.

ANNUAL GENERAL MEETING

During the year, an annual general meeting was held on 12th December, 2017.

SHAREHOLDERS RIGHTS

(i) The Way In Which Shareholders Can Convene A General Meeting of Shareholders

In accordance with Sections 566 to 568 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), shareholder(s) representing at least 5% of the total voting rights of all the shareholders having a right to vote at general meetings of the Company, may request the Directors to convene a general meeting. The written requisition must state the object of the meeting, and must be authenticated by the shareholder(s) concerned and deposited at the registered office of the Company for the attention of the Company Secretary. The requisition may consist of several documents in like form, and each must be authenticated by the person(s) making it.

If the Directors do not within 21 days from the date on which they become subject to the requirement call a general meeting to be held on a date not more than 28 days after the date of the notice convening the meeting, the shareholder(s) concerned or any of them representing more than one half of the total voting rights of all of them, may themselves call a general meeting, provided that such general meeting must be called for a date not more than 3 months after the date on which the Directors become subject to the requirement to call a meeting.

The meeting convened by shareholders shall be called in the same manner, as nearly as possible, as that in which that general meeting is required to be called by the Directors.

Corporate Governance Report

(ii) Procedure for Sending Enquiries to the Board

Enquiries by shareholders to be put to the Board can be sent in writing to the Company Secretary at the Company's registered address.

(iii) Procedures for Nominating a Person for Election as Director in General Meeting of Shareholders

Pursuant to Article 107 of the Articles of Association of the Company, no person, other than a retiring Director, shall, unless recommended by the Board for election, be eligible for election to the office of Director at any general meeting, unless notice in writing of the intention to propose that person for election as a Director and notice in writing by that person of his willingness to be elected shall have been given to the Company at least seven days before the date of the general meeting.

If a shareholder (the "Proposer") of the Company wishes to propose a person ("the Nominee"), for election as a Director at a general meeting, the minimum length of the period, during which notice to the Company signed by the Proposer of the intention to propose a person for election as a Director, and during which notice to the Company signed by such Nominee confirming his willingness to be elected may be given, will be at least seven (7) days and the period for lodgment of the notices to the Company of the intention to propose a person for election as a Director will commence no earlier than the day after the dispatch of the notice of the meeting appointed for such election and end no later than seven (7) days prior to the date of such meeting.

Environmental, Social and Governance Report

REPORTING PRINCIPLE AND SCOPE

This Environmental, Social and Governance report (“ESG Report”) of Capital Estate Limited (together with its subsidiaries, referred to in this report as the “Group” or “we”) was prepared in accordance with the Appendix 27 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The Group is principally engaged in hotel operation, property development, financial investment and related businesses, with majority of its staff engaging in the hotel operation. Having taken into account the materiality of business contributions, and the volume of stakeholder, among other things, this ESG Report primarily discloses our performance and initiatives of the hotel operation in Mainland China for the period between 1st August, 2017 and 31st July, 2018 (“Reporting Period”) in environmental, social and governance aspects.

ENVIRONMENTAL ASPECT

As a responsible corporate citizen, the Group understands that environmental protection is of utmost importance to the long-term benefit of the society. The Group continuously reviews its internal policies and relevant guidelines, with a view to integrating the principle of sustainable development into its daily operations and minimising the negative environmental impact from its business development. We have adopted various initiatives to enhance energy efficiency and achieved energy saving and emission reduction in major operating processes, which include:

- 95% of our low-efficiency lighting system has been replaced with LED and energy-saving lamps
- Centralised air-conditioning system has been installed. The number of operating air-conditioners is determined by the temperature of the water-side system, to reduce energy consumption
- Frequency inverters are used to control machines with high power output
- Energy-saving stoves are applied in kitchens
- Flue gas will only be emitted after oil separation and precipitation by hydrovents and electrostatic oil separation equipment, to ensure that the emission of flue gas and oil meets national requirement

The Group promotes environmental awareness among employees and encourages them to work with a “paperless” approach, such as using electronic communication for general office operation, storing information of employees, clients and suppliers with electronic files, confirming and processing guest room reservation through online platform or electronically. We also encourage our staff to apply double-sided printing to reduce paper usage and wastage, and switch off idling lighting, personal computer and other devices. During the Reporting Period, the Group’s electricity consumption decreased by 6% (2017: decreased by 4%) as compared to the same period of previous year.

Environmental, Social and Governance Report

The Group recognises the importance of water conservation and avoids unnecessary wastage of water in daily operations by fostering better water usage and control. For instance, we regularly inspect and timely repair any broken pipes and valves, so that we are able to detect in advance and fix the leakage; we have installed sensor faucets at washrooms in hotel to reduce water consumption; we place “environmental card” in guest rooms to encourage customers to join hands in protecting the environment by notifying them that bed sheets and towels are only replaced and cleaned upon their request, so as to minimise the frequency of changing them and save water from laundry.

We also stress the need of proper waste handling. Food waste is the major waste from hotel operation. We categorise and put food waste in designated storage area before sending the food waste to centralised processing by professional institution. The Group also proactively participated in the “Civilised Table Manner” event and promoted the act of “food conservation” and “clear your plate” to reduce wastage of food.

SOCIAL ASPECT

Our Employees

Employees are the most valuable assets of an enterprise and the core driver for enhancing competitiveness and fostering long-term development. Therefore, we offer competitive remuneration package, in terms of recruitment, salary, promotion and benefits, to attract and retain talent.

The Group strictly complies with the Employment Ordinance (Cap. 57, Laws of Hong Kong), the Labour Law of the People’s Republic of China (《中華人民共和國勞動法》) and the Labour Standards Act (《勞動基準法》) and other applicable laws in regions where the Group operates, as well as industry standards. Taking into account the working experience, strengths, academic background and other criteria, we choose our talent without any discrimination of nationality, age, religion, gender, marital status, disability or in any other form. During the Reporting Period, there was no incident of non-compliance with or violation of laws and regulations that have a significant impact on the Group relating to employment.

We offer our staff with reasonable and competitive salary and benefits, including paid holidays, housing provident funds, social insurance and commercial insurance and so on. Meanwhile, the Group ceaselessly improves its recruitment and promotion program. Employees’ remuneration, benefit and promotion are reviewed on a regular basis based on their job performance, professional skills, work experience and growth potential, in order to provide fair and just promotion and salary increment channels. The Group strictly complies with relevant laws and regulations, and prohibits child labour and forced labour. During the Reporting Period, there was no child labour and forced labour.

We care about our employees, and improve their well-being through coordinating various activities and different channels. The Group founded an “Employee Aid Association” to encourage employees to help and support each other. They can share their views and recommendations on the hotel operation through this platform, thereby facilitating a good communication between employees and the company. In addition, we organised entertainment activities, such as company trip, to strengthen employees’ sense of belonging. The Group has also set up table-tennis room, snooker room, dancing room, television sets and other entertainment facilities in the dormitory to enrich their lives after work.

Health and Safety

We place importance on the occupational safety as we consider employees' health and safety as our priority. Hence, the Group strives to provide a safe and stable working environment to its staff. We equip our employees with protective gear including cut-resistant gloves, slip-resistant shoes to reduce accidents. For special positions, such as electricians, elevator operators and lifeguards, these employees are required to hold professional certificates to assume the positions. During the Reporting Period, there were 7 work-related accidents within the Group (2017:7), and there was no incident that caused work-related fatalities.

The Group follows the Fire Law of the People's Republic of China (《中華人民共和國消防法》) and stringently regulates the fire safety control system of the hotel operation whilst preparing fire-fighting equipment according to the fire safety requirements. The Group regularly provides training on fire safety knowledge and field training, including learning how to use extinguisher properly and skills of handling fire emergency, and training on first-aid knowledge and public hygiene. The local Fire Department is also invited to our hotel to perform fire drill every year.

Development and Training

The Group attaches high importance to growing together with employees. New employees, executives and existing employees regularly receive training on management and professional skills to improve their competitiveness. All new employees are given a set of Employee Handbook which outlines our regulations, system, employees' standards of professional behaviour and code of ethics. Our human resources department is responsible for giving orientation training to new employees to help them understand our corporate culture and their job requirement, thereby allowing them to familiarise with their work environment and jobs faster and blend in the team.

Service quality is critical to the services sector, such as hotel operation. The Group regularly provides training program of service etiquette, professional moral standard and English speaking to improve service quality and speaking skills, and elevate our service level. For senior management, we provide value-added programs such as "How to Build An Excellent Team", "Enhancing Execution Capability" and "Developing Sense of Belonging" to improve their management capability and reinforce cohesion and execution of the team. During the Reporting Period, the Group organised 130 (2017: 120) training courses. Average training hours of executives and other employees were 85 hours (2017: 80 hours) and 70 hours (2017: 72 hours), respectively.

Supply Chain Management

Sustainable supply chain management is an integral part to providing stable and high-quality products and services. Thus, we implement, through a set of fair, impartial and just tender procedures, a stringent supplier management and examination standard, and determine a clear, bespoke procurement standard to ensure that qualified and high-quality suppliers are selected.

We have set up specialised procurement department and officers. We communicate closely with our suppliers and create a mutual trust and mutually beneficial partnership before making procurement. The Group's procurement officers adhere to the rigid procurement regulations and system. Suitable suppliers are selected based on their consistency of maintaining production quality, management experience, research capability of technique, equipment level, source of raw materials, delivery time and track record, together with the Group's needs.

We stress the importance of local procurement. 36 suppliers (2017: 48 suppliers) hired during the Reporting Period are local suppliers that efficiently lowered our carbon emission generated by transportation. We determine procurement prices according to the monthly price fluctuation in order to control supply costs and achieve the best economic and environmental efficiency.

Product and Service Quality

We put our customers first as we persevere in the pursuit of excellent service quality and listen to their needs and opinions. We assign designated account officers and secretaries to promptly respond to customers' needs, with a view to rendering tailored and responsible services to customers. Through sales visits, 24-hour service hotline, opinion box and other channels, we obtain customers' opinions on our different services and keep a close communication with them. We make customised arrangements and deployments for different customer groups and take feasible measures to continuously and meticulously improve our service, thereby increasing their satisfaction and loyalty.

Besides service quality, the Group strives to maintain an excellent dining level. We value food safety and quality, as we carry out stringent control on food suppliers in relations to raw foodstuffs, procedures and environment of food processing, quality assurance, among other things. Once we are aware of any potential and significant food safety issues, we will immediately terminate partnership with such suppliers.

The Group complies with the China Tourism Hotel Industry Code (《中國旅遊飯店行業規範》) and other national regulations to safeguard the legal rights and personal privacy of our guests. We collect necessary personal data from our guests based on operating needs and only use it for designated purposes. All personal data of our guests is kept in a proper manner, with non-designated staff prohibited from access. Their personal data is not allowed to be read, used, edited or disclosed without authorisation, and will not be used for advertising purpose to protect their privacy.

We promote our hotels from time to time to attract more guests. These promotional campaigns are in compliance with the Advertising Law of the People's Republic of China (《中華人民共和國廣告法》), the Interim Measures for the Administration of Internet Advertisements (《互聯網廣告管理暫行辦法》) and other applicable laws and regulations by government relating to advertising and labelling. We ensure that consumers are able to make informed choices with adequate information.

During the Reporting Period, the Group has complied with all relevant laws and regulations that have a significant impact on the Group relating to health and safety, advertising, labelling and privacy matters.

Environmental, Social and Governance Report

Anti-corruption

The Group adheres to honesty and integrity in business operation and does not tolerate any bribery, money-laundering, fraud and other illegal acts of our staff or with suppliers and business partners. Our Employee Handbook sets forth that employees are required to uphold business ethics and not to receive and ask for any unlawful benefits. Employees are responsible for reporting any corruption acts. The Group encourages its staff to report any illegal or dishonest acts within the company and protects them. Employees violating regulations will receive disciplinary punishment ranging from verbal warning to dismissal. We will review our anti-corruption policy from time to time and take improvement measures when necessary. We adopt a fair and open tender mechanism and reassess it regularly to minimise the risks of corruption in business operation.

During the Reporting Period, we were not aware of any breach of law and regulations that have a significant impact on the Group relating to corruption, bribery, extortion, fraud and money laundering.

Community Investment

The Group fulfills its corporate citizenship and contribute to the regions where it operates through its own resources and actions. We accord priority to offering available job positions to local residents to improve the local employment rate. We adopt the local procurement principle to purchase local products and services to boost local economy. We also encourage employees to take part in charity activities, such as organising volunteer team to visit the elderly home and orphanage during New Year, Mid-autumn Festival and other festive seasons.

Looking ahead, we will continue to improve and step up our social, environmental and governance efforts, integrate the idea of sustainable development into daily operations, and uphold the spirit of “giving back to the society” whilst fulfilling our corporate social responsibilities.

TO THE MEMBERS OF CAPITAL ESTATE LIMITED

冠中地產有限公司

(incorporated in Hong Kong with limited liability)

OPINION

We have audited the consolidated financial statements of Capital Estate Limited (the “Company”) and its subsidiaries (collectively referred to as “the Group”) set out on pages 32 to 92, which comprise the consolidated statement of financial position as at 31st July, 2018, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31st July, 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report

Key audit matter

Valuation of properties held for sale

We identified the valuation of properties held for sale as a key audit matter due to the significance of the assets and significant judgement involved in estimating their net realisable value.

The Group had properties held for sale amounting to HK\$411,464,000 as at 31st July, 2018 which are situated in Mainland China.

As disclosed in note 4 to the consolidated financial statements, the net realisable value of the properties held for sale is determined with reference to the estimated future selling prices to be generated by the properties, which are estimated with reference to the recent selling prices of similar properties in the same project or relevant locations and made deductions for the estimated selling expenses.

Revenue recognition from hotel operations

We identified revenue recognition from hotel operations as a key audit matter due to the involvement of high volume of transactions with relatively low value and the presumed fraud risk related to revenue recognition.

As disclosed in note 5 to the consolidated financial statements, the Group recognised revenue amounting to HK\$79,073,000 from hotel operations, representing 25% of the Group's total revenue, for the year ended 31st July, 2018.

How our audit addressed the key audit matter

Our procedures in relation to the valuation of properties held for sale included:

- Obtaining summary of the property sales (the "Summary") up to the year-end date of 31st July, 2018 and checking the corresponding sales contracts, on a sample basis, for accuracy of the Summary;
- Cross-checking the latest on-line sale records from government website with the Summary for completeness of the Summary; and
- Assessing reasonableness of management's estimation of the selling price of the yet-to-be-sold units by comparing the estimated selling prices to the recent selling prices of similar properties in the Summary or relevant locations.

Our procedures in relation to revenue recognition from hotel operations included:

- Working with information technology experts to assess the design and implementation and operating effectiveness of the revenue control activities of the hotel operations within the Group;
- Determining if the revenue recognition policies and methods of the hotel operations are appropriate and have been applied consistently;
- Performing test of details, on a sample basis, on room revenue reports generated by the information technology system used to record room revenue;
- Performing test of details, on a sample basis, on sales transactions of food and beverage for the current reporting period to verify if the revenue was recognised appropriately;
- Performing regression analysis of food and beverage revenue to identify unusual patterns of such revenue; and
- Performing analytical review on the fluctuation of the balances of the hotel operations when comparing with prior reporting period to identify any unusual transactions.

Independent Auditor's Report

Key audit matter

Revenue recognition from property sales

We identified revenue recognition from property sales as a key audit matter due to its significance to the consolidated financial statements.

As disclosed in note 5 to the consolidated financial statements, the Group recognised revenue amounting to HK\$237,155,000 from property sales, representing 75% of the Group's total revenue, for the year ended 31st July, 2018. As disclosed in note 3 to the consolidated financial statements, revenue from property sales is recognised when the development of the relevant properties have been completed and the properties have been delivered to the purchasers pursuant to the sale and purchase agreements.

How our audit addressed the key audit matter

Our procedures in relation to revenue recognition from property sales included:

- Obtaining an understanding of the management's controls over the determination of appropriate point in time to recognise revenue from property sales;
- Inspecting, on a sample basis, the terms set out in the sale and purchase agreements to understand the criteria for the delivery of properties to the purchasers through which significant risks and rewards of the properties have been passed to the purchasers; and
- Testing whether the criteria for the delivery of properties have been fulfilled by checking, on a sample basis, to the terms of the sale and purchase agreements, the relevant completion certificates for construction work, the delivery notice sent to and signed by the purchasers and the settlement status of the consideration.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

Independent Auditor's Report

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Yen Sau Yin, Emily.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

1. GENERAL

Capital Estate Limited (the “Company”) is a public limited company incorporated in Hong Kong and its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The address of the registered office and principal place of business of the Company is 17/F., MassMutual Tower, 33 Lockhart Road, Wan Chai, Hong Kong.

The Company acts as an investment holding company. The activities of its principal subsidiaries and an associate are set out in notes 39 and 18, respectively.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$” or “HKD”), which is also the functional currency of the Company.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

Amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time in the current year:

Amendments to HKAS 7	Disclosure Initiative
Amendments to HKAS 12	Recognition of Deferred Tax Assets for Unrealised Losses
Amendments to HKFRS 12	As part of the Annual Improvements to HKFRSs 2014 – 2016 Cycle

Except as described below, the application of the amendments to HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Amendments to HKAS 7 “Disclosure Initiative”

The Group has applied these amendments for the first time in the current year. The amendments require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both cash and non-cash changes. In addition, the amendments also require disclosures on changes in financial assets if cash flows from those financial assets were, or future cash flows will be, included in cash flows from financing activities.

Specifically, the amendments require the following to be disclosed: (i) changes from financing cash flows; (ii) changes arising from obtaining or losing control of subsidiaries or other businesses; (iii) the effect of changes in foreign exchange rates; (iv) changes in fair values; and (v) other changes.

A reconciliation between the opening and closing balances of these items is provided in note 35. Consistent with the transition provisions of the amendments, the Group has not disclosed comparative information for the prior year. Apart from the additional disclosure in note 35, the application of these amendments has had no impact on the Group’s consolidated financial statements.

² Effective for annual periods beginning on or after 1st January, 2019

³ Effective for annual periods beginning on or after a date to be determined

⁴ Effective for annual periods beginning on or after 1st January, 2021

Except for the new HKFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs and interpretations will have no material impact on the consolidated financial statements in the foreseeable future.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

HKFRS 9 “Financial Instruments”

HKFRS 9 introduces new requirements for the classification and measurement of financial assets, financial liabilities, general hedge accounting and impairment requirements for financial assets.

Key requirements of HKFRS 9 which are relevant to the Group are:

- all recognised financial assets that are within the scope of HKFRS 9 are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at fair value through other comprehensive income (“FVTOCI”). All other financial assets are measured at their fair values at subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss;
- in relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39 “Financial Instruments: Recognition and Measurement”. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

Based on the Group’s financial instruments and risk management policies as at 31st July, 2018, the directors of the Company anticipate the following potential impact on initial application of HKFRS 9:

Classification and measurement

- Equity securities classified as available-for-sale investments carried at cost less impairment as disclosed in note 19: these securities qualified for designation as measured at FVTOCI under HKFRS 9 and the Group will measure these securities at fair value at the end of subsequent reporting periods with fair value gains or losses to be recognised as other comprehensive income and accumulated in the investments revaluation reserve. In addition, impairment loss previously recognised of HK\$60,138,000 would be transferred from accumulated losses to revaluation reserve and revaluation reserve previously recognised upon the step acquisition of an associate of the Group of HK\$9,200,000 would be transferred to accumulated losses as at 1st August, 2018.
- All other financial assets and financial liabilities will continue to be measured on the same bases as are currently measured under HKAS 39.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

HKFRS 9 “Financial Instruments” (Continued)

Impairment

In general, the directors of the Company anticipate that the application of the expected credit loss model of HKFRS 9 will result in earlier provision of credit losses which are not yet incurred in relation to the Group’s financial assets measured at amortised costs and other items that are subject to the impairment provisions upon application of HKFRS 9 by the Group.

Based on the assessment by the directors of the Company, the impairment allowances on trade receivables and amount due from an associate calculated using the expected loss model will have no material impact on the Group’s consolidated financial statements.

HKFRS 15 “Revenue from Contracts with Customers”

HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 “Revenue”, HKAS 11 “Construction Contracts” and the related interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under HKFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when ‘control’ of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

In 2016, the HKICPA issued Clarifications to HKFRS 15 in relation to the identification of performance obligations, principal versus agent considerations, as well as licensing application guidance.

Notes to the Consolidated Financial Statements

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) *(Continued)*

HKFRS 15 “Revenue from Contracts with Customers” *(Continued)*

The directors of the Company have assessed the impact on the application of HKFRS 15 and anticipate an impact on revenue from property sales and the following areas:

- The Group has considered all the relevant facts and circumstances in assessing whether the property sale contracts contain significant financing component, including the difference between the amount of promised consideration and the cash selling price of the property; and the combined effect of the expected length of time between the Group transferring the property to the customer and the customer paying for the property and prevailing interest rates in the relevant markets. The Group has applied the practical expedient in HKFRS 15 and has not considered the financing component of contracts which are expected to be completed within one year from the date of payment made by the customers. Based on the assessment of the directors of the Company, the significant financing component included in the property sale contracts would not have material impact on the accumulated losses of the Group at 1st August, 2018.

In addition, the application of HKFRS 15 in the future may result in more disclosures in the consolidated financial statements.

The directors of the Company intend to apply the limited retrospective method with cumulative effect of initial application recognised in opening balance of equity at 1st August, 2018. Under this transition method, the Group would only apply this standard retrospectively to contracts that are not completed contracts at the date of initial application.

HKFRS 16 “Leases”

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 “Leases” and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents upfront prepaid lease payments as investing cash flows in relation to leasehold lands for owned use and those classified as investment properties while other operating lease payments are presented as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows respectively by the Group.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) *(Continued)*

HKFRS 16 “Leases” *(Continued)*

Under HKAS 17, the Group has already recognised prepaid lease payments for leasehold lands where the Group is a lessee. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-of-use assets separately or within the same line item at which the corresponding underlying assets would be presented if they were owned.

Furthermore, extensive disclosures are required by HKFRS 16.

As at 31st July, 2018, the Group has non-cancellable operating lease commitments of HK\$5,832,000, as disclosed in note 32. A preliminary assessment indicates that these arrangements will meet the definition of a lease. Upon application of HKFRS 16, the Group will recognise a right-of-use asset and a corresponding liability in respect of these leases unless they qualify for low value or short-term leases.

In addition, the Group currently considers refundable rental deposits paid of HK\$931,000 as rights and obligations under leases to which HKAS 17 applies. Based on the definition of lease payments under HKFRS 16, such deposits are not payments relating to the right to use the underlying assets, accordingly, the carrying amounts of such deposits may be adjusted to amortised cost and such adjustments are considered as additional lease payments. Adjustments to refundable rental deposits paid would be included in the carrying amount of right-of-use assets.

Furthermore, the application of new requirements may result in changes in measurement, presentation and disclosure as indicated above.

3. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange of goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 "Share-based Payment", leasing transactions that are within the scope of HKAS 17 "Leases", and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 "Inventories" or value in use in HKAS 36 "Impairment of Assets".

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Investments in an associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Investments in an associate *(Continued)*

The results and assets and liabilities of the associate are incorporated in the consolidated financial statements using the equity method of accounting. The financial statements of the associate used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. Changes in net assets of the associate other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate equals or exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 "Impairment of Assets" as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate, or when the investment (or a portion thereof) is classified as held for sale. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with HKAS 39. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate.

Where a group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

Property, plant and equipment

Property, plant and equipment including buildings held for use in the production or supply of goods or services, or for administrative purposes are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of the reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Properties held for sale/under development

Properties under development represent leasehold land and properties under development for future sale in the ordinary course of business. Cost comprises the costs of land use rights and other costs directly attributable to bringing the leasehold land to the condition necessary for it to be ready for development. Construction costs are capitalised and included as properties under development until such time when they are completed. Properties under development are stated at the lower of cost and net realisable value. On completion, the properties are transferred to completed properties held for sale.

Properties held for sale, which are completed properties, are stated at the lower of cost and net realisable value. Net realisable value takes into account of the price ultimately expected to be realised, less anticipated selling expenses and costs to completion, if applicable.

Prepaid lease payments

When the Group makes payments for a property interest which includes both leasehold land and building elements, the Group assesses the classification of each element separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire property is accounted as an operating lease. Specifically, the entire consideration (including any lump-sum upfront payments) are allocated between the leasehold land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the payments cannot be allocated reliably between the leasehold land and building elements, the entire property is generally classified as if the leasehold land is under finance lease.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Premium on prepaid lease payments

Premium on prepaid lease payments of leasehold land represents premium on acquisition of prepaid lease payments of land use rights as a result of acquisition of subsidiaries, which is stated at cost and amortised on the same basis as the related land use rights.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts and sales related taxes.

Revenue is recognised when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the Group and when specific criteria have been met for each of the Group's activities, as described below.

Revenue from hotel operations, which comprise room rentals, food and beverage sales and other ancillary services in the hotel, are recognised when the relevant services have been rendered.

Sales of trading securities are recognised when the related bought and sold contract notes are executed.

Revenue from property sales in the ordinary course of business is recognised when the development of the relevant properties have been completed and the properties have been delivered to the purchasers pursuant to the sale and purchase agreements. Deposits received from property sales prior to meeting the criteria for revenue recognition are recorded as "deposits from pre-sale of properties" under current liabilities.

Interest income is accrued on a time apportionment basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income from investments is recognised when the Group's rights to receive payment have been established.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the weighted average method.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

Impairment losses on tangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of relevant asset is estimated in order to determine the extent of the impairment loss, if any.

When it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amount of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and an associate, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rate prevailing at the end of the reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of interest in an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates that do not result in the Group losing significant influence), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Equity-settled share-based payment transactions

The fair value of services received determined by reference to the fair value of share options granted at the grant date is recognised as an expense in full at the grant date when the share options granted vest immediately, with a corresponding increase in equity (share option reserve).

When share options are exercised, the amount previously recognised in share option reserve will be transferred to share capital. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserve will continue to be held in share option reserve.

Retirement benefit costs

Payments to defined contribution scheme/state-managed retirement benefit schemes/the Mandatory Provident Fund Scheme ("MPF Scheme") are recognised as expenses when employees have rendered services entitling them to the contributions.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are classified into one of the three categories, including financial assets at fair value through profit or loss ("FVTPL"), loans and receivables and available-for-sale financial assets. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

Financial instruments *(Continued)*

Financial assets (Continued)

Financial assets at FVTPL

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial assets. Fair value is determined in the manner described in note 38(c).

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and other receivables, amount due from an associate, pledged bank deposit and bank balances and cash) are measured at amortised cost using the effective interest method, less any identified impairment losses.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as financial assets at FVTPL, loans and receivables or held-to-maturity investments.

Dividends on available-for-sale equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established.

Available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are measured at cost less any identified impairment losses at the end of the reporting period.

Financial instruments *(Continued)*

Financial assets (Continued)

Impairment loss on financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of the reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial assets, such as trade and other receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 30 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When an item of trade and other receivables is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

Financial assets (Continued)

Impairment loss on financial assets (Continued)

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity instruments in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Financial liabilities at amortised cost

Financial liabilities including trade and other payables, amounts due to related parties and amount due to a director are subsequently measured at amortised cost, using the effective interest method.

Notes to the Consolidated Financial Statements

Financial instruments *(Continued)*

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Group are initially measured at their fair values and, if not designated as FVTPL, are subsequently measured at the higher of:

- (i) the amount of obligation under the contract, as determined in accordance with HKAS 37 "Provisions, Contingent Liabilities and Contingent Assets"; and
- (ii) the amount initially recognised less, where appropriate, cumulative amortisation recognised over the guarantee period.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the financial asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the asset to the extent of its continuing involvement and recognises an associated liability. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Notes to the Consolidated Financial Statements

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Properties held for sale/under development

An assessment of the net realisable value of the properties held for sale/under development is made in each reporting period. Such assessment is made based on certain assumptions, which are subject to uncertainty and might materially differ from actual results. In making the assessment, the Group's management has made estimates concerning estimated future selling prices to be generated by the completed properties with reference to the recent selling prices of similar properties in the same project or relevant locations and made deductions for the estimated development costs and selling expenses, as appropriate. The assumptions used are intended to reflect conditions existing at the end of the reporting period. Impairment is made if the estimated net realisable value is less than the carrying amount. If the actual net realisable value on properties held for sale/under development is less than expected as a result of change in market condition and/or significant variation in the budgeted development costs or selling expenses, as appropriate, recognition of a material impairment loss may result. As at 31st July, 2018, the carrying amount of properties held for sale is HK\$411,464,000, with no impairment loss recognised (2017: properties under development of HK\$480,524,000, with no impairment loss recognised).

5. REVENUE

An analysis of the Group's revenue for the year is as follows:

	2018 HK\$'000	2017 HK\$'000
Hotel operations	79,073	82,444
Property sales	237,155	–

6. SEGMENT INFORMATION

The following is an analysis of the Group's revenue and results by operating segment, based on information provided to the chief operating decision maker ("CODM"), representing the executive directors of the Company, for the purpose of allocating resources to segments and assessing their performance. This is also the basis upon which the Group is arranged and organised. The Group's reportable and operating segments under HKFRS 8 "Operating Segments" are as follows:

Hotel operations	–	hotel business and its related services
Financial investment	–	trading of listed securities and other financial instruments
Property	–	sale of properties held for sale

Information regarding these segments is reported below.

Impairment loss recognised on an available-for-sale investment (see note 19)	(50,098)	–
	25,418	84,955

Note:

The Group had a property development project in Macau (the “Macau Properties”) which has been recorded as property for development. The Group has submitted application and development plan to the relevant Macau government authorities since 2007 and continued to liaise with the government authorities in relation to obtaining approval. The Group did not commence construction activities of the Macau Properties pending government approval on the revised development plan.

On 5th August, 2016, the Company, through Sun Fat Investment and Industry Company Limited (“Sun Fat”), an indirect 99% owned subsidiary of the Company, received a written notification from the Land, Public Works and Transport Bureau of Macau (the “Notification”) informing that, among others, the parcel of land regarding the Macau Properties (the “Macau Land”) shall be returned to the government of Macau upon expiry of the valid period of the land grant with no responsibility or burden and Sun Fat shall not be entitled to any compensation. Sun Fat lodged a judicial appeal in September 2016.

Based on the register of the Properties Registration Bureau of Macau which is publicly available, Sun Fat’s title on the Macau Land was deregistered on 28th July, 2016. Accordingly, the Group derecognised the Macau Properties with a carrying amount of HK\$60,000,000, comprising cost incurred less cumulative impairment loss of HK\$241,233,000, which was recognised in profit or loss during the year ended 31st July, 2016.

On 26th August, 2016, the Group, through two wholly owned subsidiaries, entered into deeds of settlement with Kong Kei Construction Limited (“Kong Kei”), vendor of 99% equity interest of Sun Fat, and a warrantor to Kong Kei (the “Warrantor”). Pursuant to the deeds of settlement, as the Group could not obtain approval from the relevant Macau government authorities in respect of the amendment of the land lease concession of the Macau Land and in light of the Notification, Kong Kei and the Warrantor agreed to repay to the Group an aggregate sum of approximately HK\$298.0 million (the “Settlement Sum”) which was the actual amount paid by the Group to Kong Kei for the acquisition of 99% equity interest of Sun Fat.

Payment schedule of the Settlement Sum is as follows:

	HK\$'000
On or before	
31st December, 2016	60,000
31st December, 2017	120,000
31st December, 2018	118,004
	298,004

Notes to the Consolidated Financial Statements

On 21st March, 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28th March, 2018 and was gazetted on the following day.

For the year ended 31st July, 2018, Hong Kong profits tax is calculated in accordance with the two-tiered profits tax rates regime. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying corporation will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of other group entities in Hong Kong not qualifying for the two-tiered profits tax rates regime will continue to be taxed at the flat rate of 16.5%. For the year ended 31st July, 2017, Hong Kong profits tax was calculated at a flat rate of 16.5% of the estimated assessable profits.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

9. INCOME TAX EXPENSE (CREDIT) (Continued)

Under the Law of the People's Republic of China on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the subsidiaries in the People's Republic of China ("PRC") is 25%.

The provision for PRC land appreciation tax is estimated according to the requirements set forth in the relevant PRC tax laws and regulations which is charged at progressive rates ranging from 30% to 60% of the appreciation value, with certain allowable deductions.

Taxation arising in another jurisdiction is calculated at the rates prevailing in that jurisdiction.

No provision for Hong Kong profits tax and PRC enterprise income tax has been made for both years as the Company and its subsidiaries either did not generate any assessable profits for the years or have available tax losses brought forward from prior years to offset against assessable profits generated during these two years.

Tax charge (credit) for the year can be reconciled to the profit before taxation per the consolidated statement of profit or loss and other comprehensive income as follows:

	2018 HK\$'000	2017 HK\$'000
Profit before taxation	62,088	53,902
Tax charge at applicable Hong Kong profits tax rate	10,245	8,894

Share of post-acquisition results and other comprehensive income, net of dividend received	(14,402)	(1,276)
	215,053	228,179

At 31st July, 2018 and 2017, the Group had interest in the following associate:

Name of entity	Place of incorporation/ principal place of operation	Proportion of quoted capital held by the Group		Principal activities
		2018	2017	
Tin Fok Holding Company Limited ("Tin Fok") (Note)	Macau	32.5%	32.5%	Hotel operations and property investment

Note: Tin Fok is controlled by Mr. Sio, a director and a substantial shareholder of the Company with significant influence over the Company.

Included in the cost of investment in an associate is goodwill of HK\$2,362,000 (2017: HK\$2,362,000) arising on acquisition of Tin Fok.

The summarised financial information in respect of the Group's associate is set out below. The summarised financial information below represents amounts shown in the associate's financial statements prepared in accordance with HKFRSs. The associate is accounted for using the equity method in the consolidated financial statements.

	2018 HK\$'000	2017 HK\$'000

18. INTEREST IN AN ASSOCIATE *(Continued)*

Reconciliation of the above summarised financial information to the carrying amount of the interest in associate recognised in the consolidated financial statements:

	2018 HK\$'000	2017 HK\$'000
Net assets attributable to owners of Tin Fok	654,433	694,822
Proportion of the Group's ownership interest in Tin Fok	32.5%	32.5%
	212,691	225,817
Goodwill	2,362	2,362
	215,053	228,179
Carrying amount of the Group's interest in Tin Fok		

19. AVAILABLE-FOR-SALE INVESTMENTS

	2018 HK\$'000	2017 HK\$'000
Unlisted equity securities, at cost	73,778	73,778
Impairment loss recognised	(60,138)	(10,040)
	13,640	63,738

The available-for-sale investments represent investments in unlisted equity securities issued by private entities incorporated and operate in the United States of America and Macau involved in property investment. They are measured at cost less impairment at the end of the reporting period because the range of reasonable fair value estimates is so significant that the directors of the Company are of the opinion that their fair values cannot be measured reliably.

Mr. Sio is a director of, and has significant influence in, one of the above private entity investees incorporated in Macau (the "Macau Entity") with a carrying amount of nil (2017: HK\$50,098,000).

Pursuant to the official gazette of Macau issued in May 2018, the term of the land concession in respect of the property owned by the Macau Entity (the "AFS Property") has expired and the relevant Macau government authorities declared that the land concession has become invalid. The AFS Property shall accordingly be resumed by the government of Macau at nil consideration. As a result, an impairment loss of HK\$50,098,000 (2017: nil) was recognised in profit or loss in the current year for the Group's investment in the Macau Entity.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

19. AVAILABLE-FOR-SALE INVESTMENTS *(Continued)*

The available-for-sale investments that are denominated in currencies other than functional currencies of the relevant group entities are set out below:

	2018 HK\$'000	2017 HK\$'000
United States dollars ("USD")	13,640	13,640

20. PROPERTIES HELD FOR SALE/UNDER DEVELOPMENT

	2018 HK\$'000	2017 HK\$'000
Properties held for sale	411,464	–
Properties under development	–	480,524
	411,464	480,524

The properties held for sale/under development are located on land in Mainland China:

In October 2013, the Group obtained approvals from the relevant authorities in Mainland China for the construction of new residential buildings for sale and the construction activities started. During the year ended 31st July, 2018, additions of properties under development in Mainland China amounted to HK\$97,031,000 (2017: HK\$84,113,000).

At 31st July, 2017, the properties under development were expected to be completed and available for sale to customers within twelve months from the end of the reporting period.

During the year ended 31st July, 2018, property development was completed and the properties are available for delivery to purchasers. The properties are classified as properties held for sale thereafter.

21. INVENTORIES

The inventories at 31st July, 2018 and 2017 represent food and beverage for hotel business.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

22. TRADE AND OTHER RECEIVABLES

The hotel revenue is normally settled by cash or credit card. The Group allows an average credit period of 30 days to its trade customers of hotel business. The following is an aged analysis of trade receivables, presented based on invoice date which approximate revenue recognition date.

	2018 HK\$'000	2017 HK\$'000
Trade receivables:		
0 to 30 days	1,676	3,337
31 to 60 days	35	114
61 to 90 days	88	6
91 days or above	114	135
	1,913	3,592
Prepayments and deposits	2,588	2,194
Other receivables	1,968	2,884
	6,469	8,670

Before granting credit term to new trade customer of hotel business, the Group assesses the potential customer's credit quality by investigating the customer's historical credit record and then defines the credit limit of that customer. Trade receivables are neither past due nor impaired at the end of the reporting period for which the Group believes that the amounts are recoverable. The Group does not hold any collateral over these balances.

23. AMOUNT DUE FROM AN ASSOCIATE/AMOUNTS DUE TO RELATED PARTIES/ AMOUNT DUE TO A DIRECTOR

(a) Amount due from an associate

The balance at the end of the reporting period is unsecured, non-interest bearing, non-trade in nature and repayable on demand.

The fair values of the above investments were determined based on the quoted market bid prices at the close of business at the end of reporting period.

25. PLEDGED BANK DEPOSIT/BANK BALANCES AND CASH

The pledged bank deposit represents deposit pledged to a bank to secure short-term banking facilities granted to the Group. The deposit carries fixed interest rate of 0.01% (2017: 0.01%) per annum. The pledged bank deposit will be released upon the release of the relevant banking facilities.

The restricted bank balance at 31st July, 2017 comprised proceeds received from pre-sale of properties of the Group's property project in Mainland China which shall be deposited into the designated bank account of the Group according to the relevant requirements of the Mainland China local government, net of approved payment for the property project. The restriction was released during the current year upon completion of the property development.

The other bank balances and cash comprise other bank balances and cash held and short-term bank deposits that are interest-bearing at market interest rate and are with original maturity of three months or less.

The Group's bank deposits, including the restricted bank balance, carry interest at rates ranging from nil to 0.01% (2017: nil to 0.01%) per annum.

The bank balances and cash that are denominated in currencies other than the functional currencies of the relevant group entities are set out below:

	2018 HK\$'000	2017 HK\$'000

At 31st July, 2017 and 31st July, 2018	3,886,751,193	1,518,519

On 17th August, 2016, the Company allotted and issued 185,000,000 new shares under a placing arrangement at a placing price of HK\$0.077 per placing share pursuant to the placing agreement dated 4th August, 2016 entered into with an independent placing agent not connected with the Company. The new placing shares were allotted and issued under the general mandate granted to the directors of the Company at the annual general meeting of the Company held on 4th December, 2015. The new placing shares were placed through the placing agent to not less than six independent placees not connected with the Company. The Company raised HK\$13,767,000 (net of expenses) with the intention at the time of placing to use as general working capital of the Group. Further details of the placing are set out in the Company's announcements dated 4th August, 2016 and 17th August, 2016.

New shares issued during the year ended 31st July, 2017 rank pari passu with the existing shares in all respects.

29. SHARE-BASED PAYMENT TRANSACTIONS

Pursuant to an ordinary resolution passed on 7th December, 2012, a share option scheme was adopted for the primary purpose of providing incentives to directors, employees and eligible participants. The scheme will expire on 6th December, 2022.

Under the scheme, the Board of Directors of the Company (the "Board") may grant options to directors, employees, consultants, advisers, agents, vendors, suppliers of goods or services and customers of the Company and its subsidiaries and entities in which the Group holds equity interest at the discretion of the Board pursuant to the terms of the scheme, to subscribe for shares of the Company at a price which shall not be less than the highest of (i) the closing price of a share of the Company listed on the Stock Exchange at the date of grant of the option; (ii) the average of the closing price of a share of the Company on the Stock Exchange for the five trading days immediately preceding the date of grant of the option; and (iii) the nominal value of a share of the Company.

The maximum number of shares in respect of which options shall be granted under the scheme and any other share option schemes of the Company is 10% of the total number of shares in issue at the date of approval of adoption of the scheme. No director, employee or eligible participant may be granted options under the scheme which will enable him or her if exercise in full to subscribe for more than 1% of the issued share capital of the Company in any 12-month period. The option period for which the options granted can be exercisable, shall be such period as notified by the Board, save that it shall not be more than 10 years from the date of grant subject to the terms of the scheme. Nominal consideration of HK\$1 is payable on acceptance of each grant and the share options granted shall be accepted within 28 days from the date of grant.

No share option was granted or remained outstanding under the scheme during both years.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

30. PLEDGE OF ASSETS

Bank deposit of HK\$642,000 (2017: HK\$642,000) was pledged to banks to secure credit facilities to the extent of HK\$600,000 (2017: HK\$600,000) granted to the Group, of which HK\$26,000 (2017: HK\$7,000) was utilised by the Group.

31. RETIREMENT BENEFIT SCHEMES

The Group has joined the MPF Scheme for all of its employees in Hong Kong. The MPF Scheme is registered with the Mandatory Provident Fund Schemes Authority under the Mandatory Provident Fund Schemes Ordinance in Hong Kong. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rule of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rate specified in the rules. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme.

The employees employed by PRC subsidiaries are members of the state-managed retirement benefit schemes operated by the PRC government. The PRC subsidiaries are required to contribute a certain percentage of their payroll to the retirement benefit schemes to fund the benefits. The only obligation of the Group with respect of the retirement benefits schemes is to make the required contributions under the schemes.

The retirement benefit scheme contributions arising from the MPF Scheme and the PRC state-managed retirement benefit schemes recognised in profit or loss represent contributions payable to the schemes by the Group at rates specified in the rules of the schemes. During the year ended 31st July, 2018, contributions of the Group under the MPF Scheme and the PRC state-managed retirement benefit schemes amounted to HK\$2,748,000 (2017: HK\$2,662,000).

32. OPERATING LEASES

The Group as lessee

Minimum lease payments paid under operating leases for premises during the year was HK\$3,278,000 (2017: HK\$2,750,000). In addition, the Group paid rentals of HK\$1,334,000 (2017: HK\$3,280,000) during the year in respect of accommodation provided to a director, details of which are included in directors' emoluments (see note 11).

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

32. OPERATING LEASES (Continued)

The Group as lessee (Continued)

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

	2018 HK\$'000	2017 HK\$'000
Within one year	3,211	5,567
In the second to fifth year inclusive	2,621	144
	5,832	5,711

Operating lease payments represent rentals payable by the Group for certain of its office premises and staff quarters. Leases are negotiated and rentals are fixed for an average term of two to five years (2017: two to five years).

33. COMMITMENTS

	2018 HK\$'000	2017 HK\$'000
Contracted for but not provided in the consolidated financial statements in respect of – Properties under development	–	70,034

34. CONTINGENT LIABILITIES

At 31st July, 2018, the Group provided guarantees of HK\$92,150,000 (2017: nil) to banks in favour of its customers in respect of the mortgage loans provided by the banks to such customers for the purchase of the Group's developed properties. These guarantees provided by the Group to the banks will be released upon receiving the building ownership certificate of the respective properties by the banks from the customers as a pledge for security to the mortgage loans granted. The directors of the Company consider that the fair value of such guarantees on initial recognition was insignificant.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

35. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated statement of cash flows as cash flows from financing activities.

	Balance at 1st August, 2017 HK\$'000	Financing cash flows HK\$'000	Interest expense charged HK\$'000	Currency realignment HK\$'000	Balance at 31st July, 2018 HK\$'000

36. RELATED PARTY DISCLOSURES *(Continued)*

(b) Compensation of key management personnel

The remuneration of directors, who are the key management personnel of the Group, during the year was as follows:

	2018 HK\$'000	2017 HK\$'000
Short-term benefits	6,718	6,342
Post-employment benefits	24	6
	6,742	6,348

The remuneration of directors and key executives is determined by the Board after considering recommendation from the Remuneration Committee, having regard to the performance of individuals and market trends.

37. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which include amounts due to related parties and amount due to a director disclosed in note 23, net of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital and various reserves.

The directors of the Company review the capital structure on a semi-annual basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debt.

38. FINANCIAL INSTRUMENTS

(a) Categories of financial instruments

	2018 HK\$'000	2017 HK\$'000
Financial assets		
FVTPL held for trading	46,740	64,235
Loans and receivables (including cash and cash equivalents)	293,656	315,817
Available-for-sale financial assets	13,640	63,738
Financial liabilities		
Amortised cost	186,058	365,805

(b) Financial risks management objectives and policies

The Group's major financial instruments are set out in (a) above and details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

(i) *Currency risk*

The Group has foreign currency assets, including available-for-sale investments and bank balances which expose the Group to foreign currency risk.

The carrying amounts of the foreign currency denominated monetary assets at the reporting date are as follows:

	2018 HK\$'000	2017 HK\$'000
USD	13,640	21,391

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

38. FINANCIAL INSTRUMENTS *(Continued)*

(b) Financial risks management objectives and policies *(Continued)*

Market risk (Continued)

(i) Currency risk (Continued)

Sensitivity analysis

The Group is mainly exposed to the fluctuation in USD. The foreign currency risk is not significant as HKD is pegged with USD.

(ii) Interest rate risk

The Group's bank balances and amount due to a director carry interest at variable rates and have exposure to cash flow interest rate risk due to the fluctuation of the prevailing market interest rates. The directors of the Company consider that the Group's exposure is not significant as these interest-bearing bank balances are within a short maturity period. In relation to the amount due to a director, the management continuously monitors the interest rate fluctuation and may consider to repay the amount partially or in full, if necessary.

Details of the Group's interest bearing financial instruments are disclosed in respective notes.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note.

The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of the Hong Kong Dollars Prime Rate arising from the amount due to a director denominated in HKD.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for amount due to a director. The analysis was prepared assuming the balance outstanding at the end of the reporting period was outstanding for the whole year. 50 basis points increase or decrease represents management's assessment of the reasonably possible change in interest rates. If interest rate had been 50 basis points higher or lower and all other variables were held constant, the Group's profit for the year ended 31st July, 2018 would not be affected (2017: decrease or increase by HK\$250,000).

In management's opinion, the sensitivity analysis is unrepresentative of the inherent interest rate risk as the year end exposure does not reflect the exposure during the year.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

38. FINANCIAL INSTRUMENTS *(Continued)*

(b) Financial risks management objectives and policies *(Continued)*

Market risk (Continued)

(iii) Other price risk

The Group is exposed to equity price risk arising from investments held for trading. Management manages this exposure by maintaining a portfolio of investments with different risks.

The Group's equity price risk is mainly concentrated on listed equity instruments quoted on the Stock Exchange.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to price risk assuming all other variables were held constant, at the reporting date.

If prices of the respective investments held for trading had been 5% higher/lower, the Group's profit after taxation would increase/decrease by HK\$2,337,000 (2017: HK\$3,212,000) as a result of the changes in fair value of investments held for trading.

Credit risk

The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from

- the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position; and
- the amount of contingent liabilities in relation to financial guarantees issued by the Group as disclosed in note 34.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk of the Group on liquid funds is limited because the counterparties are banks with high credit-ratings.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2018

38. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risks management objectives and policies (Continued)

Credit risk (Continued)

For properties sold, while the ownership certificate of the respective properties are not yet received by the purchasers, the Group typically provides guarantees to banks in connection with the purchasers' borrowing of mortgage loans to finance for a maximum amount of up to 70% of their total purchase price of the property. If a purchaser defaults on the payment of its mortgage during the term of the guarantee, the bank holding the mortgage may demand the Group to repay the outstanding amount under the loan and any accrued interest thereon. Under current market condition, the mortgage facilities will be secured by the properties, whose market prices are generally higher than the guaranteed amounts. In this regard, the management of the Group considers the Group's credit risk is significantly reduced.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance its operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of borrowings and ensures compliance with loan covenants.

The following tables detail the Group's remaining contractual maturity for its financial liabilities. For non-derivatives financial liabilities, the tables have been drawn up based on the undiscounted cash flows of the financial liabilities based on the earliest dates on which the Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest is at floating rate, the undiscounted amount is based on the interest rate at the end of the reporting period.

Liquidity risk (Continued)

Liquidity tables (Continued)

The amounts included above for financial guarantee contracts are the maximum amounts the Group could be required to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on the expectations at the end of the reporting period, the Group considers that it is more likely than not that no amount will be payable under the arrangement. However, this estimate is subject to change depending on the probability of the counterparty claiming under the guarantee which is a function of the likelihood that the financial receivables held by the counterparty which are guaranteed suffer credit losses.

The amounts included above for variable interest rate instruments for non-derivative financial liabilities are subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

(c) Fair value measurements of financial instruments

Fair value of financial instruments that are measured at fair value on a recurring basis

Some of the financial instruments are measured at fair value at the end of the reporting period. The following table gives information about how the fair values of these financial instruments are determined (in particular, the valuation techniques and inputs used).

Financial assets	Fair value at 31st July,		Fair value hierarchy	Valuation techniques and key inputs
	2018 HK\$'000	2017 HK\$'000		
Listed equity securities	46,740	64,235	Level 1	Quoted bid prices in active market

There were no transfers among Level 1, 2 and 3 in the current and prior years.

Fair value of financial instruments that are not measured at fair value on a recurring basis

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their respective fair values.

None of the subsidiaries had issued any debt securities at the end of the reporting period or at any time during both years.

The above table lists the subsidiaries of the Company which, in the opinion of the directors of the Company, principally affected the results or assets of the Group. To give details of other subsidiaries would, in the opinion of the directors of the Company, result in particulars of excessive length.

At the end of the reporting period, the Company has other subsidiaries that are not material to the Group. A majority of these subsidiaries operate in the British Virgin Islands ("BVI"). The principal activities of these subsidiaries are summarised as follows:
